Instructions

General information

Persons registered under Article 12-A of the Tax Law as **retailers of heating oil only** who are not required to file monthly tax returns must file this return. For those required to file monthly tax returns, use Form PT-100, *Petroleum Business Tax Return*.

If you are an exempt organization that has established its status as an exempt organization under section 1116(a) of the Tax Law, and any product that you import into New York State is consumed exclusively by you, then you are not subject to the petroleum business tax on petroleum businesses. Check the appropriate box on the front of Form PT-200, *Quarterly Petroleum Business Tax Return*, and do not include any petroleum business tax (Article 13-A) in the amounts on Form PT-201.

Diesel motor fuel is composed of two subcategories of product: unenhanced diesel fuel and enhanced diesel fuel.

The specific products making up the unenhanced category include fuel oil, kero-jet fuel, and kerosene and water-white kerosene (K-1). This category does not include industry standard No. 4 diesel fuel (see notice N-89-63 for definition of industry standard No. 4 diesel fuel).

The specific fuels making up the enhanced diesel product include diesel fuel, No. 1 diesel fuel, enhanced No. 2 fuel oil (the blended product that results from mixing No. 2 fuel oil with kerosene or a cetane improver to make the fuel oil more suitable to operate in a motor vehicle diesel engine), and any product designated as diesel motor fuel.

You may reproduce (for example, computer-generate) Form PT-106.1/201.1, *Retailers of Heating Oil Only - Receipts and Sales*, provided the form is clearly identified and contains all of the information (including form number, distributor's name, identification number, etc.) requested on the original form and the information is in the same format.
