

Instructions for Form IT-613

Claim for Environmental Remediation Insurance Credit

Tax Law — Sections 23 and 606(ff)

General information

For tax years beginning on or after April 1, 2005, an environmental remediation insurance credit is allowed to taxpayers for premiums paid for environmental remediation insurance with respect to a qualified brownfield site. Individuals (including sole proprietors), estates and trusts, shareholders of an S corporation, partners in a partnership (including members of a limited liability company (LLC) treated as a partnership for federal income tax purposes), and beneficiaries of an estate or trust may claim the credit.

Eligibility

To qualify for the credit, you must execute a Brownfield Cleanup Agreement (BCA) under the Environmental Conservation Law (ECL), and have a *Certificate of Completion* (CoC) issued by the Commissioner of Environmental Conservation for the qualified site for which the eligible premiums are paid. You must also have a certification form issued by your insurer, certifying that the insurance coverages qualify for the credit.

For more information about the Brownfield Cleanup Program, visit the Department of Environmental Conservation (DEC) Web site (at www.dec.ny.gov).

The amount of the credit is the lesser of:

- 50% of the eligible premiums paid by the taxpayer on or after the effective date of the BCA executed by the taxpayer and DEC; **or**
- \$30,000.

A relocated vendor track may not receive more than \$25 million in brownfield tax credits (including the brownfield redevelopment tax credit, remediated brownfield credit for real property taxes and environmental remediation insurance credit) and other benefits of the brownfield program.

The credit is allowed for the tax year in which the CoC is issued. However, if the date the CoC was issued occurred in a tax year that began prior to April 1, 2005, the date of issuance of the CoC is treated as if that date occurred in the taxpayer's first tax year beginning on or after April 1, 2005. The credit may be taken only once with respect to each CoC issued. The credit is not allowed for a qualified site for which a CoC is issued after March 31, 2015.

If the amount of the credit exceeds the taxpayer's tax for the year, the excess will be treated as an overpayment of tax to be credited or refunded (without interest).

If the CoC is revoked, the credit must be added back in the tax year in which the determination is final and no longer subject to judicial review. Complete a separate Form IT-613 for each CoC for which a recapture is required.

If you deducted insurance premiums paid for environmental insurance in computing federal taxable income, you must add back the amount of credit on the appropriate form.

Who must file

File Form IT-613 if you are an individual, a beneficiary or fiduciary of an estate or trust, a member of a partnership, or a shareholder of an S corporation, and:

- you are claiming the environmental remediation insurance credit; **or**

- you are required to recapture any previous environmental remediation insurance credit due to a certificate of completion being revoked.

An estate or trust that divides the credit or addback of credit among itself and its beneficiaries must attach Form IT-613 to Form IT-205, showing each beneficiary's share of the credit or recapture of credit.

A partnership must file Form IT-613 with Form IT-204 showing the total of the credit from the partnership and any recapture of credit.

An S corporation does not file Form IT-613. It must file Form CT-613. If you are a shareholder in an S corporation that has made the election under Tax Law section 660, obtain your share of the S corporation's credit or recapture of credit from the S corporation.
