

Instructions for Form CT-500

Corporation Tax Credit Deferral

CT-500-I

General information

Effective for tax years beginning on or after January 1, 2010, and before January 1, 2013, certain tax credits (listed below) are subject to a temporary deferral for any tax year for which the total amount of these credits that would otherwise be used to reduce your tax liability or be refunded or applied as an overpayment to next year's tax exceeds \$2 million. The amounts deferred under this provision will be carried over to tax years beginning on and after January 1, 2013.

Note: If the total of all credits you are claiming is \$2 million or less, you do not need to fill out Form CT-500.

Determining credits subject to deferral

If you are claiming more than \$2 million in credits subject to deferral, you may be required to defer a portion of these credits. The tax credits listed below are subject to deferral. Use Form CT-500 to help determine whether the total amount of those listed credits that would have otherwise been used against your tax liability, or refunded or applied to next year's tax, exceeds \$2 million. If it does, complete the remainder of Form CT-500 to determine the amount of each credit to enter on your franchise tax return and the amount to defer. (See *Calculating your credits and deferral amounts.*)

Form CT-500 is used by corporations to calculate their deferral amounts. New York S corporations do not complete Form CT-500 unless claiming the special additional mortgage recording tax credit (Form CT-43). S corporation shareholders use Form IT-500, *Income Tax Credit Deferral*, to calculate their deferral.

Corporations that are required or permitted to file combined returns under Article 9-A, 32, or 33 must use the total tax credits and the tax liability of the combined group to determine whether the combined group is subject to the temporary deferral of tax credits.

For taxpayers subject to tax under Articles 9, 9-A, 32, and 33, the credits that **are** subject to the deferral are:

- Alternative fuels credit
- Biofuel production credit
- Brownfield credits
 - Brownfield redevelopment tax credit
 - Remediated brownfield credit for real property taxes
 - Environmental remediation insurance credit
- Certified capital company (CAPCO) credit

The credits that **are not** subject to the deferral for taxpayers subject to tax under Articles 9, 9-A, 32, and 33 (and may be claimed without regard to the deferral) are:

Any amount of credit carryforwards computed on your credit forms without regard to the deferral will continue to be carried forward under the same Tax Law provisions that applied to those carryforwards without the deferral. However, any amount of carryforwards that would have been used against the tax during the deferral years (2010 through 2012) may be limited under the deferral provisions.

Example: You earn a nonrefundable investment tax credit (ITC) of \$6,000,000 in 2011. Your tax liability is \$2,500,000. You would have used \$2,500,000 of the ITC against your tax liability in 2011, and carried forward \$3,500,000 to the following

year. However, you may only use \$2,000,000 of the ITC in 2011 (\$500,000 must be deferred). Your deferred amount (\$500,000) is your temporary deferral nonrefundable payout credit (see Using your accumulated deferred credits). You may continue to carryforward \$3,500,000 of your ITC for use in future tax years.

In 2012, your tax liability is \$4,000,000. Your only credit is the \$3,500,000 carryover of ITC from 2011. You would have used \$3,500,000 if the deferral was not in effect. However, you are subject to the deferral, and may only use \$2,000,000 against your tax liability. The remaining \$1,500,000 is added to your temporary deferral nonrefundable payout credit (which now equals \$2,000,000), and your ITC credit carryforward is now zero.

Using your accumulated deferred credits

The amounts deferred will accumulate, and they become your temporary deferral **nonrefundable** payout credits or temporary deferral **refundable** payout credits. These credits may be used for tax years beginning on or after January 1, 2013.

The accumulated amounts of **nonrefundable** tax credits that are deferred for tax years beginning on or after January 1, 2010, and before January 1, 2013, are combined and they become your temporary deferral nonrefundable payout credit. Any amount of the temporary deferral nonrefundable payout credit that is not deductible for the tax year beginning on or after January 1, 2013, and before January 1, 2014, may be carried over to the following year(s) to be deducted from your tax until the accumulated credit amount is exhausted.

The accumulated amounts of **refundable** tax credits that are deferred for tax years beginning on or after January 1, 2010, and before January 1, 2013, are combined and they become your temporary deferral refundable payout credit. Taxpayers are allowed to claim the temporary deferral refundable payout credit over a period of three tax years as follows:

Tax year	Claim amount allowed
Beginning on or after January 1, 2013, and before January 1, 2014	50% of the total accumulated credit
Beginning on or after January 1, 2014, and before January 1, 2015	75% of the balance of the accumulated credit
Beginning on or after January 1, 2015, and before January 1, 2016	The remaining balance of the accumulated credit

If the amount of the temporary deferral refundable payout credit allowed for each year exceeds your tax for the year, the excess will be refunded.

Complete Form CT-501, *Temporary Deferral Nonrefundable Payout Credit*, and Form CT-502, *Temporary Deferral Refundable Payout Credit*, to track your accumulated deferred credits.

Calculating your credits and deferral amounts

Complete your tax return and credit forms as follows:

1. Calculate your corporation franchise tax liability without regard to any credits.
2. Complete all credit forms, in their entirety, including all carryovers, as if the credit deferral was not in effect. When applying credits, you must follow the ordering of credits as required under the Tax Law, or in accordance with the order prescribed in the applicable Tax Law section in which the credit is allowed. Do not enter these credit amounts on your franchise tax return.

For information on your applicable ordering of credits, see the instructions for your franchise tax return. Article 9-A taxpayers see Form CT-600-I, *Instructions for Form CT-600, Ordering of Corporation Tax Credits*.

3. Complete Form CT-500 to determine whether the total amount of credits subject to deferral that would have otherwise been used against your tax liability, or refunded or applied to next year's tax, exceeds \$2 million. If so, follow these instructions for entering amounts on your credit forms.

Combined filers: Complete only one Form CT-500 for the combined return. Include all credits claimed by all entities in the combined group when completing Form CT-500.

New York S corporations: Do not complete Form CT-500 unless the S corporation itself is claiming a refund of the special additional mortgage recording tax credit that exceeds \$2 million.

You will need the deferred credit amounts from your **2010, 2011, and 2012** Forms CT-500 to complete 2012 Forms CT-501 and CT-502, which track your accumulated deferred credits for use in succeeding tax years. **Keep a copy for your records.**

General instructions

Complete Schedule A, column B for nonrefundable credits subject to the deferral. Then complete Schedule B, column B for refundable credits subject to the deferral. Then complete line 3. If line 3 is **\$2 million or less**, you are **not** subject to the credit deferral. **Do not** complete the rest of Form CT-500 and do not attach Form CT-500 to your tax return. Follow the instructions on your credit forms for taxpayers who have \$2 million or less in total credits to determine the amounts to enter on your tax return.

If line 3 is **more than \$2 million**, you **are** subject to the credit deferral and must complete Form CT-500 to determine the amounts to enter on your franchise tax return. Continue with line 4 (you will need this amount to complete columns C and D in Schedules A and B). Then complete Schedules C and D, as applicable, and lines 7 and 8. If you are required to complete Schedule B, column E or Schedule D, column C, you will complete those columns after completing one of the following:

- Article 9-A:** Schedule E
- Article 33:** Schedule F
- Article 32:** Schedule G
- Article 9:** Schedule H

Attach a copy of Form CT-500 and all applicable credit forms to your franchise tax return. Keep a copy of your 2012 Form CT-500 for your records.

Note: New York S corporations claiming the special additional mortgage recording tax credit will only complete Schedule B.

Schedules A through D

For credits that are partially refundable or refundable only to certain taxpayers, you may compute both nonrefundable and refundable portions. Enter the nonrefundable portion, as computed on your credit claim forms, in Schedules A and C. Enter the refundable portion on Schedules B and D. Credits that are partially refundable or refundable only to certain taxpayers include:

- Special additional mortgage recording tax credit

Line instructions

Schedules A and B

If you have any net recapture amounts of nonrefundable or refundable credits (negative credit amounts from your credit forms) enter those amounts as negative numbers in the appropriate boxes in the summary of credits section on your franchise tax return as instructed on your credit forms. Do not include those amounts on this form, unless instructed otherwise.

Column B – Enter the amount of nonrefundable and refundable credits allowed to be used against the tax as computed on your credit forms. Column A contains the credit form and line numbers where you will find the amounts to include in column B. For credits that have a portion that is nonrefundable and a portion that is refundable, enter in Schedule A the portion that is **not refundable** and enter in Schedule B the **refundable** portion. You will find these amounts on your credit claim forms on the lines referenced in column A of Schedules A and B.

Power for Jobs credit – Enter the lesser of the credit amount or tax computed on gross income from Form CT-186-E, line 88, or Form CT-186-P, line 4.

Servicing mortgages credit – The amount of the credit entered in column B cannot exceed the amount that is used to reduce the tax due to zero.

Line 3 – Add line 1, column B, and line 2, column B. If the result is \$2 million or less, **do not** complete the rest of this form. If the result is more than \$2 million, continue with line 4.

Line 4 – Divide \$2 million by the amount on line 3 and round to **six decimal places**. Do not enter more than 1.0. This is your allowable credit percentage. Use this percentage to calculate the amounts in column C.

Column C – Multiply each column B amount by the amount on line 4 and enter the result in column C. Column C shows the amount of each credit that is allowed in the current tax year. **Do not** enter these amounts on your franchise tax return. Continue with this form to determine the amounts to enter on your franchise tax return.

New York S corporations: If you have a refundable special additional mortgage recording tax credit that exceeds \$2 million, enter the column C amount on Form CT-3-S, line 26. Complete column D, but do not complete the rest of this form.

Column D – Subtract each column C amount from each column B amount. The result is the amount of your deferred credit. Use Form CT-501 to calculate your *temporary deferral nonrefundable payout credit* accumulated and Form CT-502 to calculate your *temporary deferral refundable payout credit* accumulated.
