**Tax on Diesel Motor Fuel. Includes instructions for supporting schedules  
(Forms PT-102.1 through PT-102.4)**

**PT-102-I**  
(1/13)

## General information

If you are an exempt organization that has established its status as an exempt organization under Tax Law section 1116(a), and any motor fuel, diesel motor fuel or residual petroleum product that you import into New York State (NYS) is consumed exclusively by you, then you are not subject to the Article 13-A tax on petroleum products. Do not include any petroleum business tax in the amounts on Form PT-102 (see Form PT-100-I, *Instructions for Form PT-100*).

*Diesel motor fuel* is No. 1 diesel fuel, No. 2 diesel fuel, biodiesel, kerosene, fuel oil or other middle distillate and also motor fuel suitable for use in the operation of an engine of the diesel type. Diesel motor fuel does not include any product specifically designated No. 4 diesel fuel.

*Non-highway diesel motor fuel* is any diesel motor fuel that is designated for use other than on a public highway (except for the use of the public highway by farmers to reach adjacent lands), and is dyed diesel motor fuel.

*Highway diesel motor fuel* is any diesel motor fuel which is not non-highway diesel motor fuel.

*Dyed diesel motor fuel* is diesel motor fuel which has been dyed in accordance with and for the purpose of complying with 26 USC 4082(a).

*B20* is a mixture consisting by volume of 20% biodiesel and the remainder of which is diesel motor fuel.

*Biodiesel* is either qualified biodiesel or unqualified biodiesel.

*Qualified biodiesel* is a diesel motor fuel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 USC 7545) and that meets the ASTM International active standard D6751 for biodiesel fuel.

*Unqualified biodiesel* is a diesel motor fuel substitute produced from nonpetroleum renewable resources that does not meet the ASTM International active standard D6751 for biodiesel fuel.

*Commercial gallonage* is gallonage that:

- is non-highway diesel motor fuel or residual petroleum product;
- is included in the full measure of the non-highway diesel motor fuel component or the residual petroleum product component of the petroleum business tax;
- does not and will not qualify:
  - for the utility credit or reimbursement,
  - as manufacturing gallonage,
  - for the not-for-profit organization exemption, or
  - as fuel used for heating/cooling; and
- will not be used and has not been used in the fuel tank connecting with the engine of a vessel.

*Railroad diesel* means non-highway diesel motor fuel for use and consumption directly and exclusively in the operation of a locomotive or a self-propelled vehicle run only on rails or tracks, but only if either:

- all the fuel is delivered into a storage facility which is not equipped with a hose or other apparatus by which the fuel can be dispensed into the fuel tank of a motor vehicle and the facility is used only to fuel locomotives or self-propelled vehicles, or
- in accordance with the terms of sale, all the fuel is delivered directly into the tank of a locomotive or self-propelled vehicle.

*Mode of delivery* is any means of transportation used in transporting fuel, including a ship-**S**, barge-**B**, truck-**T**, railroad car-**R**, pipeline-**P**, or stationary transfer-**ST**. Leave the carrier's name and federal employer identification number (EIN) blank for a stationary transfer-**ST**.

*Manifest number* is the number assigned by the transporter to the delivery as recorded in box 1 of Form FT-960, *Uniform Manifest for Interstate (Importation) Movements of Motor Fuel and Diesel Motor Fuel* or Form FT-970, *Uniform Manifest for Intrastate Movements of Motor Fuel and Diesel Motor Fuel*.

*Terminal control number* is the number assigned to a terminal registered with the Internal Revenue Service. The terminal is supplied by pipeline or marine vessel, and fuel is disbursed to trucks or rail cars through a loading rack.

You may reproduce (e.g., computer-generate) Forms PT-102.1 through PT-102.4 provided each form is clearly identified and contains all of the information (including form number, distributor's name, EIN, etc.) requested on the original form, and the information is in the same format.
