Instructions

General information

Effective for tax years beginning on or after January 1, 2009, the fuel cell electric generating equipment credit expired. Only carryforwards may still be utilized.

Former Article 32 taxpayers that have a carryover of the credit from the tax year immediately preceding the current tax year may include that carryover in the computation of credit used and carried forward.

Credit amount

The credit cannot reduce the tax to less than the following minimum taxes:

- The fixed minimum tax under Article 9, sections 183 and 185
- The fixed dollar minimum tax as computed under Article 9-A
- The fixed minimum tax of \$250 under Article 33

Under Article 9, the credit must first be deducted from the taxes imposed by section 183. Any credit remaining may then be deducted from the taxes imposed by section 184.

The credit allowed is **not** refundable. However, any amount of credit not claimed in the current tax year may be carried forward for an unlimited number of tax years. The credit may not be applied against the metropolitan transportation business tax (MTA surcharge) under Article 9, 9-A, or 33.
