How to know if your return is accepted

Check your email or text messages to confirm that your return is accepted. You'll receive notifications when:

- your return is submitted successfully (from both the IRS and New York State); or
- your return is rejected.

If your return is rejected, check your email for instructions about how to fix and resubmit your return. If you'd like help, return to the FSA site where you prepared your returns.

If you don't receive a message from the IRS or New York State, your returns may not have been successfully filed. Log on to www.MyFreeTaxes.com to make sure you submitted your returns.
