ONEIDA COUNTY EXTENDS ITS LOCAL
 SALES AND USE TAX THROUGH NOVEMBER 30,1992

On November 30, 1990, the 3% general sales and use tax currently imposed throughout Oneida County, outside the cities of Rome, Sherrill and Utica, and the county portion of the local sales and use taxes imposed within those cities expires. However, as a result of legislation enacted by the Oneida County Board of Legislators on August 15, 1990, effective December 1, 1990, the existing Oneida County sales and use taxes are reimposed in the identical manner and at the same rates. In other words, all sales and use taxes presently imposed within Oneida County will continue to apply to all taxable transactions made on and after December 1, 1990.

The new legislation imposed these taxes through November 30, 1992, and will expire at that time unless new legislation is enacted to extend or reimpose such taxes. A memorandum will be published before November 30, 1992, to report the status of these local sales and use taxes as of December 1, 1992.

All affected reporting codes and rates within Oneida County remain as follows:
