Corrections to Form IT-RP-1 Resident Income Tax Forms and Instructions Packet

There are two errors in the printed New York State income tax packet (Form IT-RP-1), the booklet that contains both the resident forms and instructions.

Error found in Yonkers worksheet - This error affects only Yonkers residents filing Form IT-150. The error is contained in line *a* of the Yonkers worksheet on page 25 of Form IT-RP-1. Line *a* reads, *Amount from line 27*. It should read, *Amount from line 29*.

Error found in New York City household credit table 6 - This error affects only married taxpayers filing separate returns who claim the New York City household credit. The error is contained in the New York City household credit table 6, on **both** pages 25 and 99 of Form IT-RP-1. The *Over but not over \$15,000 line with 2 exemptions* reads 35. It should read, **30**.

Please note these errors are only in the printed IT-RP-1 tax packets. If you picked up a *Resident Income Tax Return instructions booklet (IT-150/201-I)* at your local bank, library, post office, federal office building, or any New York State district tax office, or if you access the instructions for Form IT-150 or Form IT-201 on our Tax Department Web site, use our Publication 352 or our Pub 352-CD ROM, or if you use any of the year 2005 software tax preparation products on the market, pages 25 and 99 have been corrected. The corrected pages 25 and 99 are easily identified by a line under the page number and the word **Revised** directly under the line.
