IFB #08-05
Questions and Answers

#	IFB Section	Question	Answer
1	VI.B.2.	Is this requirement asking for print capabilities of the searches and the search criteria; or the output records after the search has been performed?	The results (output) of the search performed must have the capability of being printed.
2	Attachment A Part A	What is the total number of non-concurrent users/total number of users?	The Department is unable to provide an accurate total number of non-concurrent users/total number of users. This bid requires pricing for 50 concurrent users.
