Appendix	Effective Dates of New York State Taxes and Fees Administered by the Department of Taxation and Finance	A-1
Tax Description	Description for some of New York State's Major Taxes	1

Overview

This publication contains a series of statistical tabulations detailing taxes administered by the New York State Department of Taxation and Finance. The information presented includes revenues and selected tax structure information for the State's major taxes. It also presents data for taxes, fees and assessments imposed by other State agencies and for some locally imposed taxes that are collected by the Department. This edition presents information for New York State Fiscal Year 2015-2016 (SFY 2015-2016) and some historical statistics. SFY 2015-2016 began April 1, 2015 and ended March 31, 2016.

During SFY 2015-2016, the Department collected \$71.6 billion from State-imposed taxes and fees. The State personal income tax accounted for the largest share, \$47 billion. The State sales, excise and user taxes (\$14.8 billion), business taxes (\$6.9 billion) and property transfer taxes (\$2.6 billion) contributed toward that total. Other taxes and fees totaled about \$0.1 billion. The following chart depicts the share of total revenues from these major sources.

New York State Tax Collections: Fiscal Year 2015-2016

The publication is divided into seven sections containing 26 statistical tables. Section I presents State taxes and fees by major tax group. Sections II through VI contain detailed historical revenue information for the major categories presented in Section I. Where available, additional tax base information is presented. For example, Table 9 in Section III displays the amount of taxable gallons by product type for SFY 2015-2016 on which the petroleum business tax was imposed. Section VII contains local taxes collected by the Department. It also shows additional detailed information on local sales tax receipts, the city of New York and city of Yonkers personal income taxes and the regional Metropolitan Transportation Authority tax surcharge.

This year's report is the first year that reflects the 2014 corporate tax reform legislation. First effective in the 2015 tax year, the impact of one of the key provisions - merging the bank and general corporate franchise taxes - can be seen in the negative value for bank tax. Former bank tax taxpayers now pay under the general corporate franchise tax. The negative value in the bank tax is the result of settlement of prior period refund claims and the movement of unrequested overpayments from bank tax to the corporate franchise tax

The Appendix summarizes the effective dates for New York's major taxes. For a summary of New York State and Local General Sales and Compensating Use Tax Rates, please visit the Department's website at www.tax.ny.gov. Finally, the Description of Tax page provides a description for some of New York State's major taxes.

For information useful in understanding and interpreting the data presented in this report, see the descriptive summaries of the taxes and discussion of recent tax legislation presented in the *Tax Expenditure Report*, which is prepared by the Office of Tax Policy Analysis (OTPA) in conjunction with the Division of Budget, and OTPA's annual *Summary of Tax Provisions*, both of which are available at www.tax.ny.gov. Also, the Department's website provides descriptions of each tax. Finally, see the Governor's *Executive Budget*, which is prepared by the Division of Budget.

You can obtain statistics relating to Off-Track Betting Revenues by Regional Corporation and Pari-Mutuel and Racing Tax Collections in the New York State Gaming Associations annual report available at www.gaming.ny.gov

Tabular data presented in the publication may be obtained from the Department's website at www.tax.ny.gov. Questions, other inquiries and individual data table requests may be directed by electronic mail to: Policy-Statistical-Reports@tax.ny.gov.

a/ The category for clearing house banks was introduced to distinguish them from other commercial banks with the implementation of a new returns processing system late in fiscal year 2005-06. During that time and the following fiscal year, several payments were misclassified as received from clearing house banks. During fiscal year 2006-07, accounting adjustments corrected net revenue received by bank category in fiscal year 2005-06 and early fiscal year 2006-07 by moving payments from clearing house banks to other commercial banks. These adjustments resulted in negative net collections for clearing house banks for fiscal year 2006-07. Similar situations occurred in subsequent fiscal years.

b/ Amount for Savings Banks reflects a one-time adjustment for reclassifying a savings bank to a commercial bank.

1/ Taxable gallons are derived from monthly tax liability as reported by distributors on timely-filed returns, related to collection periods, and are before audit adjustments and tax credits.

2/ Beginning January 1999, the non-utility category includes gallons used to generate electricity, which are not eligible for the Tax Law Section 301-d utility credit (i.e. gallons used by entities which are not subject to price regulation by the Public Service Commission). With the continuing deregulation of the State's electric sector, more gallonage used to generate electricity will no longer be eligible for the 301-d utility credit, and will be taxed as commercial gallons, and not as residual fuel or non-highway diesel fuel used in utility production of electricity.

3/ Non-utility use and utility use in production of exhaust steam.

a/ Data not available.

b/ Not applicable; new statutory category effective April 1, 2001.

Description of Tax

This section describes some of New York State's major taxes reported in the statistical tables.

Alcohol Beverage Tax

New York State imposes an excise tax on the sale or use in New York State of beer, cider, wine and liquor. New York City imposes an additional excise tax on the sale or use in New York City of beer and liquor containing more than 24% alcohol by volume.

Business Taxes

General business corporations pay taxes computed under the corporation franchise tax, Article 9-A. Prior to 2015, banks paid under a separate tax article - Article 32. As a result of corporate tax reform and starting in 2015, banks now pay under Article 9-A. Separate taxes apply to banks and insurance companies, including anyone who buys insurance from an insurance company that is not authorized to write insurance in New York State. The utility corporations tax applies to certain transportation and transmission corporations (except airlines), utility companies, telecommunications services, and agricultural cooperatives. In addition, as under federal law, there is a tax on the unrelated business income of nonstock not-for-profit corporations. Finally, a gross receipts tax applies to petroleum businesses.
